

## 45-degree reducing elbow for cable trays

### Overview

The 45° Horizontal Elbow boasts a horizontal bend that grants the flexibility for a 45° cable tray to navigate left or right. This elbow effectively narrows the tray width while seamlessly connecting straight sections and fittings for a flawless transition. Diagonal Corner R=75 mm (Standard) 2. Curve Corner R=300 mm (Request) Refer to the product sheets for more information on product details and compatibility. Clean Tray 45-Degree Elbows are used for continuous runs with 45-degree turns. Use left and right arrow keys to resize the column. Press Home for 45° flat elbow. Available for purchase in a full composite system. Customized fitting dimensions are available upon request. Standard cable tray fitting fabricated using stainless steel (SS) angle plates and bolt sets.
