

A well-known Dutch manufacturer of seismic bracing for cable trays

Overview

Gripple Seismic Bracing systems are specifically designed and engineered to brace and secure suspended non-structural equipment (VAV boxes, fans, unit heaters, small in-line pumps, etc.) and components (HVAC duct, conduit/cable tray, and piping) within a building or structure. Eaton's TOLCO seismic bracing solutions help protect people and non-structural components during an earthquake. Why is seismic bracing important?

International Building Code. Contractors, Specifiers, and others. We have decades of experience with real-world applications in severe seismic zones, supplying world-class products and solutions. Both cable and rigid bracing solutions are available for single pipe, trapeze, and for. TOLCO seismic cable bracing systems are ideal for projects with extended drop lengths or have limited space for seismic bracing.

Article Content

Cable bracing | Sway bracing | Tolco | Eaton

For over 60 years, Eaton has manufactured TOLCO seismic bracing and B-Line series cable tray, strut systems, pipe hangers and more that support electrical, mechanical, plumbing, and fire protection

Seismic Supports

Seismic Supports Cable trays are systems used for the safe transportation and protection of electrical cables, designed to fit the pathways within buildings and

Seismic Bracing for Piping and Beyond | Engineered Solutions

Seismic Bracing for Piping | Sway Brace for Seismic Protection Seismic bracing for piping, ducting, cable trays and HVAC equipment is crucial when designing seismic protection. These bracing systems

TOLCO seismic bracing overview brochure

And with built-in visual verification features of the TOLCO seismic bracing products, the installer can be assured that they have properly installed the product, and inspectors can easily be assured of correct

What Is Seismic Restraint for Equipment?

Seismic restraint relies on established engineering principles that ensure the transfer of earthquake-induced forces from the equipment into the building's main structure. Diagonal Bracing One of the

KINETICS™ Seismic & Wind Design Manual Section

D9.0 – Electrical Distribution Systems Title Seismic Forces Acting On Cable Trays & Conduit Basic Primer for the restraint of Cable Trays & Conduit Pros and Cons of Struts versus Cables

Seismic Bracing Kit | Seismic Bracing | Wire and Cable Hangers | Wire ...

Kit contains items needed for seismic bracing long cable tray runs. Each kit contains: (4) 11" cables with mounting eyelets (2) Metal brackets for attachment to support members (4) Cable clamp collars (4)

UNISTRUT Seismic Bracing Solutions

UNISTRUT Seismic Bracing Solutions ntractors, Specifiers, and others. We have decades of experience with real-world applications in severe seismic zones, supplying world-class products and solutions.

Seismic and cable tray solution flyer

Our cable tray, bolted framing, and seismic bracing are approved as one system through third party testing. Our team of experts can help you select the best cable tray series for your application, as

Seismic Bracing & Blast Protection | Gripple

We offer a pre-engineered, time-saving solution which braces and secures non-structural equipment within a building to minimise damage from earthquakes or seismic events.

Seismic Bracing Systems for Cable Trays Catalog

All our seismic Wire Rope/Cable™ bracing, complies with model building codes, and installs in just one-third the time needed for more conventional pipe, angle, and

Mechanical, Electrical and Plumbing Seismic Bracing Systems

"nVent"s seismic experts provide everything we need for a code compliant cable bracing system. Their patented, turn-key seismic solutions give us peace of mind that our building products are properly

Seismic MEP Solutions | Eaton

Eaton"s TOLCO seismic bracing solutions help protect people and non-structural components during an earthquake. For over 60 years, the mechanical, electrical, and fire protection trades have relied on

Seismic cable bracing solution brochure

Along with reliable, quality products that deliver lower total installed cost, Eaton provides pre-engineered details for lateral and longitudinal bracing of cable tray, single hung systems, and more.

TOLCO seismic bracing overview brochure

Our seismic experts will work to establish the lowest total installed cost, so that customers can know that they have the right products at the right time for their installation and final inspection. Eaton"s TOLCO

Seismic Proof Systems

This typically includes: pipe and duct bracing, fan coil unit bracing, cable tray bracing, floor mounted components, light fitting details. This document covers the rules of
