

## After-sales service for network security equipment 40G

### Overview

Our team of Cisco-trained Level 3 engineers provides OEM-quality service, proactive monitoring, and guaranteed access to Cisco-approved spares—ensuring minimal downtime and extending product life by up to three years. Extreme Networks strives to provide best-in-class products and services to meet our customers' needs throughout all stages of the network lifecycle. As technology and business needs evolve, there are cases where products no longer meet market requirements. Customers with active service contracts will continue to receive support from the Cisco Technical Assistance Center (TAC). Find the latest Cisco End of Life (EOL) & End of Service Life (EOSL) dates and get clear insights into the official EOL policy. Extend the lifespan of your data center assets and simplify support with CDS MVS Services. Multi-vendor services (MVS) can help you differentiate your offerings, and expand. Maintenance provides rapid access to 24/7 technical support, hardware repair/replacement, and to new Operating System (OS) features and enhancements so your network is continuously protected from the ever-increasing sophistication and volume of web-based threats. Symantec Hardware Support is. Third-party maintenance (TPM) is a type of hardware support provided by a company other than the original equipment manufacturer (OEM).
