

Barbados Fiber Optic Distribution Frame 24 Cores

Overview

The Optical Distribution Frame (ODF) 24C 1U SC, loaded with SC simplex adapters, is a compact and efficient fiber optic distribution solution designed for streamlined connectivity and cable management. This specific ODF configuration is optimized for SC connectors and offers the following key features. The ODF patch panel is a modular system that is suitable for optical cable installation, bare fibers splicing & protection and pigtail storage & management. The 24 core rack mount distribution frame ODF patch panel is a reliable and efficient fiber management solution for your fiber optic network. It provides fiber fixing, splicing, termination, patching, and cable management in telecom rooms, data centers. The 24 port fiber optic ODF unit is the convenient cable management for fiber connections, supervising and maintenance. All kinds of types and specifications are available.

Article Content
