

Benin receives fiber optic cable for communication

Overview

ISOCEL Telecom expands fibre and wireless internet in Benin, offering reduced fees and free first month to new users. Backed by €20m, it aims to reach 500k homes, addressing connectivity gaps in Cotonou and driving Benin's digital growth. The government of Benin plans to connect 18 additional municipalities to the fiber optic network by mid-2025 as part of its goal to provide high-speed internet access to all 77 municipalities in the country. This announcement was made by Aurelie Adam Soulé Zoumarou, Minister of Digital Economy and. As part of its five-year "Bénin Révélé" project, launched by President Patrice Talon, Benin aims to become the digital services hub for the whole of West Africa by 2021 and to make information and communication technologies the main lever for its socio-economic development. The Commissioner of Communication and Orientation, Mr.
