

Bulgaria Lighting Distribution Box Project

Overview

The project, which started in February and is planned to be finalized by the end of June, will include removal of all current T5 luminescent lights and installation of new LED lights, which will improve visibility, efficiency and reduce energy consumption. Modern architectural elegance meets precision light control with the LEDIL® Daisy-powered CELESTIA linear system. In 2014 the “Engineering services” department of Filkab AD was transferred to the company. Today Engineering EAD offers manufacturing and turnkey engineering solutions. Switchboards are used to distribute. A lerang is a leading CAD outsourcing and lighting services company in Bulgaria for having services more than one and half decade. Company's CAD department has the ability to. EMA group was established in 2015 in Plovdiv, Bulgaria, by engineers with decades of experience in the field of electrical machinery and equipment, electrical distribution and generation.
