

Cable tray T-junction box

Overview

The Cable Tray T-Joint is a durable and versatile accessory designed to connect cable trays at a 90-degree angle, allowing for organized and efficient routing of cables in industrial and commercial installations. This is a high-performance metallic coating which offers an optimum surface protection in a wide variety of aggressive and demanding environments, indoor as well as outdoor. The unique alloy of small amounts of magnesium and/or aluminium in the zinc bath provides ULTRA protection with a self-healing. If you want a little more: The junction boxes, made from high-quality materials with sensible wall thicknesses, are particularly stable and thus perfectly equipped to handle greater loads. Here you will find the list of your Material Lists. Material: Made from high-quality galvanized steel or stainless steel for durability.
