Overview

PRODUCT FEATURES:- Weatherproof outlet box extension hood- Specifically designed as a quick & easy, code compliant angle adaptor to mount a single gang receptacle at a 45° angle or less, when exposed to weather, with plug inserted- Assembly can be fitted over new or existing flush. PRODUCT FEATURES:- Weatherproof outlet box extension hood- Specifically designed as a quick & easy, code compliant angle adaptor to mount a single gang receptacle at a 45° angle or less, when exposed to weather, with plug inserted- Assembly can be fitted over new or existing flush. The 45 Degree Adapter kit allows mounting of any standard panel connector at a 45 Degree angle, reducing stress on the cabinet and also requires less space as cable is hung at an angle. "The AR1/AR2 are Aluminum Bolted Quadrant Strain Clamps and are designed to be used primarily for deadending aluminum substation cable bus. During installation the cable will slide free under the U-Bolts, or if preferred, U-Bolts may be removed. Description: Galvanized 45° Fixed Angle Dead Box. 7" *Pricing for AR and Urethane Liners Available Upon Request. Price may vary for registered customers. Tariffs have been added to the base price of this product. This email address is associated with more than one company.
