

Does Huawei have a 1-to-8 optical splitter

Overview

The Huawei OSPL45203 is a highly reliable and efficient bare optical splitter designed for fiber optic networks. With dimensions of 60*7*4mm, it includes a PLC splitter with pigtails and complies with the. With Huawei's core concept for ODN construction centering on full and dense coverage coupled with short and easy access, Huawei's ODN 3.0 solution uses two transformative technologies to support five typical network scenarios. In the earliest FTTH solution, ODN 1. The main business includes optical fiber trunk, optical fiber home, machine room wiring, data center wiring, network wiring and other solutions; It also provides communication equipment, such as optical fiber cables, copper cables, ODF,DDF, MDF cabling components, ODN components, service cabinets. Shenzhen Uonel Technology Co. is a Global Provider of Telecommunication Equipment and Services. The splitter has different splitting ratio which covers N:2 to N:64 (N=1, 2). □ The input pigtail can be easily distinguished from the output pigtail due to the color difference.
