

## How much does it cost to install a fiber distribution box

### Overview

Fiber optic cable installation costs average \$4,500 for most homeowners, with most installations ranging from \$1,500 to \$7,000. These fibers are thin strands, often as small as a human hair, that transmit data as pulses of light. With prices ranging from \$1 to over \$ 50 per linear foot, depending on the installation method, understanding these costs helps make informed decisions about this essential connectivity investment. With labor's share of costs roughly twice that of materials, network builders are looking to find the most efficiencies there, with aerial enabling construction crews to deploy fiber faster over existing infrastructure than having to move dirt, deploy conduit, and pour concrete in underground. These networks are constructed both underground and through aerial fiber, at an average cost of \$1,000 to \$1,250 per residential household passed or \$60,000 to \$80,000 per mile. Check with a local pro for your specific job. This guide presents typical price ranges in USD to.
