

Inspection of Indoor Electrical Distribution Boxes in Singapore

Overview

A licensed electrical installation must be inspected and certified fit for operation by the appointed Licensed Electrical Worker (LEW) at least once a year. Installations in higher-risk settings or premises need more frequent inspections and certifications. Tan Hak Khoo from the following engineering firms: Sing Si Bo & Institution of Engineers who contribute in their individual capacity. At XPower Electrical, we provide comprehensive electrical testing Singapore services to ensure that your wiring, circuits, and distribution boards are safe, reliable, and fully compliant with EMA regulations. Preventing Electrical Hazards: Electrical faults can lead to dangerous situations, including electrical fires. In Singapore, your distribution board (DB box) is the central point where electricity from SP Group enters your home and is split into multiple circuits – for lights, sockets, aircon, water heater, and more. It is usually located near your main entrance in HDB flats and many condos, or near.
