

Latvian Spectrometer Manufacturer

Overview

Baltic Scientific Instruments (BSI) was established in 1994 on the basis of Riga Research and Development Institute for Radio-Isotope Apparatus (RNIIRP, est. 1966), which belonged to Ministry for Atomic Energy. We're excited to present our new device – All-In-One Hand-held Integrated Gamma Spectrometer, designed for in-sit applications and well in demand by CBRN labs worldwide. Users of GammaPRO are now able to secure their settings by locking access for other users with login and password. A new solution. Our database includes 12,836 chemistry companies from all over the world. The business directory for spectrometers manufacturers □ All manufacturers incl. Its product portfolio includes NDT analyzers, HPGe Detectors, and scintillation. Analytik Jena is a leading provider of high-end analytical measuring technology, instruments, and products in the fields of biotechnology and molecular diagnostics and high quality liquid handling and automation technologies. AAS for flame, graphite furnace, and hydride techniques. Our commitment to quality and innovation sets us apart.
