

Niger Fiber Optic Distribution Frame

Overview

A total of 1,031 km of fiber optic cable has been installed across five routes: Arlit-Assamaka-Algerian border (220 km), Diffa-N'Guigmi-Chadian border (186 km), Zinder-Magaria-Nigerian border (117 km), Niamey-Dosso-Gaya-Benin border (300 km), and Niamey-Makalondi-Burkina Faso. A total of 1,031 km of fiber optic cable has been installed across five routes: Arlit-Assamaka-Algerian border (220 km), Diffa-N'Guigmi-Chadian border (186 km), Zinder-Magaria-Nigerian border (117 km), Niamey-Dosso-Gaya-Benin border (300 km), and Niamey-Makalondi-Burkina Faso. Niger has completed all sections of its component of the Trans-Saharan Fiber Optic Backbone. A provisional handover ceremony was held on Friday, November 14, 2025, marking a key step toward future interconnections with neighbors such as Benin, Nigeria, Chad, Burkina Faso, and Algeria. A total of. Niger has taken a major step forward in improving the country's broadband connectivity and regional digital integration by completing provisional acceptance of the fibre-optic sections built under the Trans-Sahara Optical Fibre Backbone Project (TSB) - a project financed by the African Development. Niger has completed a major 640-mile fiber optic cable network, a \$50 million project funded by the African Development Bank, designed to boost broadband access across the country. Costing approximately 30 billion CFA francs (\$53.08 million), this project includes a data center in addition to fiber optics.
