

Power Distribution Box xdf

Overview

This product is widely used in three-phase low-voltage transmission and distribution systems in outdoor public places such as substations, substations, factories, enterprises, both sides of streets (highways), residential areas, high-rise buildings, etc., as a standardized. The XDF-W series cable branch box is designed outdoors, with a fully sealed structure and a cabinet protection level of IP33. Whether for industrial applications, commercial buildings or your home - our solutions ensure a stable and secure power supply. With flexible configuration options, our switchgear combinations offer the perfect combination. xComfort KLV is a flush and hollow-wall mounted compact distribution enclosure for residential and small commercial applications. In addition to an extensive range of 1- to 5-row energy distribution cabinets designed and approved according to IEC/EN 62208 and IEC/EN 60670-24, the series also. PowerBox factory offers a vast range of PDUs, distro boxes, racks, panels, adapters, cable extensions and splitters to safely manage power distribution, all designed and built to be fully compliant with the safety regulations. Our production includes innovative customized sub-assembly of component. ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to innovative on-demand electric bus charging systems, we deploy infrastructure that meet the needs of the next generation of smarter mobility.
