

Price of optical splitters for communication equipment rooms

Overview

Modern PLC splitters typically range from \$20 to \$200, with pricing primarily influenced by the splitting ratio (1:2, 1:4, 1:8, 1:16, 1:32, or 1:64), insertion loss specifications, and manufacturing quality. Optical splitters and couplers split or combine light—distributing signals injected into a single fiber strand to multiple fibers, enabling point to multi-point communication in Fiber To The Home (FTTH) networks based on ITU-T PON standards such as GPON, XGS-PON and new 25 and 50G standards. The AU-D14 is a digital audio splitter with one optical (Toslink) input to four optical (Toslink) outputs, which maintains a rel. Optical wavelength splitter (OWS201) is used to separate the various wavelengths that may be present in a NGPON2 system to measu. Optical wavelength splitter (OWS202) is.
