

Returning the fiber optic router

Overview

Pack all components of your Google Fiber equipment, including the router, set-top box, and any other accessories. Place the return label on the package, making sure it is well adhered. Learn how to send back All-Fi Hubs and All-Fi Extenders Boosters for your internet service. Have your account number handy and call us at 800. Fiber optic internet is generally installed in the following 5 steps, which we'll dive deeper into throughout the article: A technician checks your area and prepares the connection from the neighborhood fiber network. A fiber cable (drop) is run from a nearby terminal that could be either a pole or. If your fiber internet is capable of multi-gig speeds but seems like it's underperforming, you may actually have a router problem. An older router only built for Wi-Fi 5 or Wi-Fi 6 simply wasn't. The new router came without a cable for the phone to the microfilter so the old BT cable is still in use. I can of course purchase a new one, but wondered if the cables had to be returned with the router in order to avoid any financial charges for not returning all the "kit"?

I was a bit blindsided. And by the way, if you need to know How to return Google Fiber equipment, you just have to follow the instructions that we will give you.
