

## Somali Fiber Optic Cable Factory

### Overview

Somcable started construction works in 2009 with a 25-year license for the rollout of Somaliland's first fiber-optic infrastructure – Somcable works with over two dozen telecommunication providers, bringing customized solutions for clients. Dalkom Somalia offers access to a seamless network covering 30 African countries via more than 55,000km of optical fibre serving more than 500 African locations. In the field of information and communication, ZTT is dedicated to building the integrated industrial chain of optical fiber preform, optical fiber and fiber optic cable to provide customers with systematic end-to-end products and service solutions, enjoying the reputation of “home of special fiber. Founded in 2009 as part of the MSG Group of Companies, we are a progressive fiber optic network company providing services to the Horn of Africa. DUBAI: The Internet has changed the way the health sector. Somalia is embarking on an ambitious journey to bridge its digital divide by accelerating the deployment of optical fiber infrastructure. This initiative goes beyond merely improving connectivity, aiming for transformative changes across economic, social, and technological landscapes, with the.

## Article Content

Somalia develops unified fibre optic policy

Despite Somalia's connection to five international submarine cables and the planned arrival of a sixth in 2025, this deficient infrastructure hampers the equitable distribution of available capacity.
