

Tax Rate on Imported Relay Protection Devices

Simplex SC UPC

Overview

On February 24, 2026, the President of the United States signed a proclamation introducing a 10% duty on all products imported into the United States under Section 122 of the Trade Act of 1974. This ad valorem duty stacks on existing Section 301 and Section 232 tariffs currently in effect. We will. The rate of duty to be levied on certain goods is based on the Common Customs Tariff, from which the online-accessible electronic customs tariff tables have been derived. Each individual tariff heading comprises rates of duty. These rates are an indicator of the amount of duty to be paid and can be. Get your Protective Relay US Tariff Readiness Assessment Related Reports: Protective Relay Market by Technology (Digital & Numeric Relay, Electromechanical & Static Relay), Application (Generators, Transmission Lines, Busbar, Feeders, Motors), Voltage (Very High, High, Medium, Low), End-user. The five items under consideration are referred to as the "750/760 Feeder Protection System," the "745 Transformer Protection System," the "469 Motor Protection System," the "489 Generator Protection System," and the "735/737 Feeder Protection System." Each of the protection devices is said to be. Information and reports on Protection Relay Type Exports Under HS Code 85364900 along with detailed shipment data, import price, export price, monthly trends, major exporting countries countries, major importing countries and major ports.
