

Upgraded version of quantum communication terminal box

Overview

SAN FRANCISCO, 3 MAR 2026: Transcelestial today announces CENTAURI+, world's first bandwidth-on-demand wireless laser communications platform, designed to upgrade the commercially successful CENTAURI laser communications terminal into an intelligently manageable and quantum-secure. SAN FRANCISCO, 3 MAR 2026: Transcelestial today announces CENTAURI+, world's first bandwidth-on-demand wireless laser communications platform, designed to upgrade the commercially successful CENTAURI laser communications terminal into an intelligently manageable and quantum-secure. Laser communications startup Transcelestial aims to ramp telco AI capacity with Centauri+, its new terminal that touts quantum-safe connectivity with aggregate bandwidth of up to 40 Gbps. 5 include RFQ Manager, Mobile Warehouse, and the Quantum Notification Portal. SMA customers schedule your free upgrade here. Have you visited our free Quantum webinar library?

There are now more than 40 free recorded webinars on Quantum products and capabilities. Watch at. QSwitch is a versatile low-frequency signal routing box that seamlessly integrates into your existing setup. It also enables easy monitoring and control via USB and. The Communications Terminal program is a convenient way to remotely interface with Quantum Composers pulse generators and is provided with every pulse generator.
